What's Included

Contents

Qty.

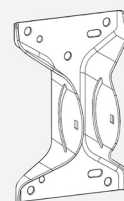

A	Base	1
B	Pole	1
C	M6 Pivot Bolt	4
D	M6 Adjusting Bolt	4
E	M6 Serrated Flange Nut	8
F	End Cap	1
G	10mm Spanner	2

Note: Product appearance may vary from images shown and may change without notice. An extra set of hardware is included for your convenience.

1

Attach the Base

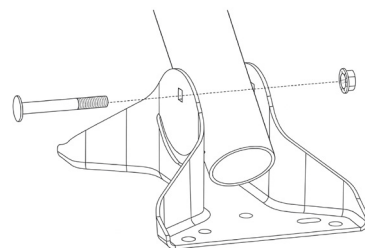

Fix Part A (Base) to your mounting surface using suitable fixings (*not included*). Ensure it is level and secure.

2

Attach the Pole

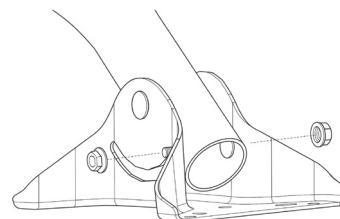

Align Part B (Pole) with the holes in the base. Insert Part C (M6 Pivot Bolt) and fasten with Part E (M6 Serrated Flange Nut). Use the supplied 10 mm spanner to tighten.

3

Add the Adjusting Bolts

Screw in 2 × Part D (M6 Adjusting Bolts) through the side holes of the base and pole. Lock them with 2 × Part E (Serrated Flange Nuts). Tighten and adjust tilt as needed using the spanner.

4

Finish with the End Cap

Place Part F (End Cap) on top of the pole.
