

SUNGROW C&I ESS SOLUTION **SHT & SBH** MADE it **SIMPLE**

Max.600kW, 3840kWh

Energy systems of the future will be diverse, intelligent, and adaptable to a range of scenarios. Sungrow's SHT system excels in residential applications and is a game-changer in C&I sectors by simplifying design, installation, commissioning, and maintenance processes. We simplify the construction of energy systems to deliver clean power for all.

EMS

Logger1000

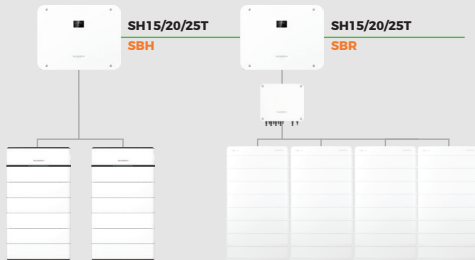

Parallel up to 24 Inverters

Parallel with different inverter models

Parallel with different battery models

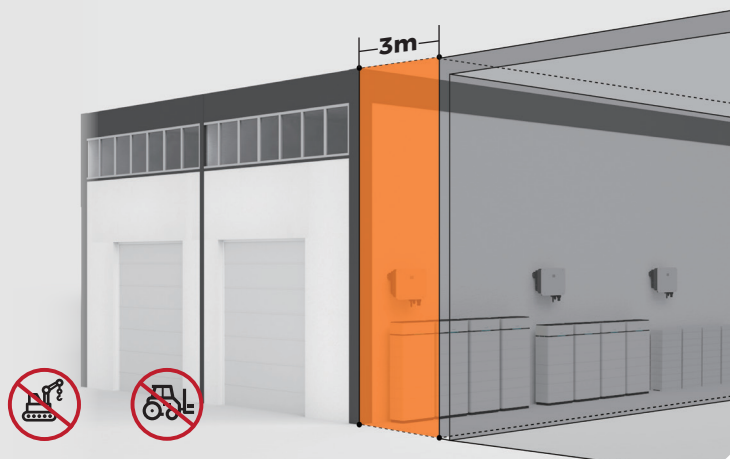

SIMPLE DESIGN

Comprehensive solutions,
Flexible modular design, scalable capacity,
AC/DC coupling, built-in EMS,
RETROFIT-FRIENDLY.

SIMPLE INSTALLATION

No Limitation on Site,
Modular installation, wireless design,
NO FORKLIFTS, NO CRANES REQUIRED.

SIMPLE COMMISSIONING

ONE-Click Application,
Completion in **TWO** minutes,
THREE-Step setup.

Step1

Fill in plant basic information

Step2

Add communication device

Step3

Configure tariff and complete creation

SIMPLE O&M

User-friendly operation,
App-based controls,
Easy module replacement for maintenance.
